NFL AWAY GAME TRAVEL PACKAGES

Complete Market Analysis & Business Roadmap

PROFITABILITY	MARKET TREND	BUY INTENT	COMPETITION
7.8/10	Rising	High	Medium

EXECUTIVE SUMMARY

A subscription-style concierge service that bundles flight, hotel, seat upgrade, local transport, pre-game meal, post-game meet & greet, travel insurance and 24/7 support into a single, instant-checkout package for NFL fans traveling to away games. It serves 25-45 year-old fans who want a hassle-free, premium experience and are willing to pay \$1,200 for guaranteed upgrades and exclusive perks. The business will thrive because the NFL fan base is highly engaged, the travel market is fragmented, and there is no fully automated real-time platform offering this level of personalization. The operator must first build a minimal viable platform, secure key supplier agreements, and launch a targeted ad campaign within the first week.

Why Now: The NFL season is in full swing, fan engagement on social media is at a peak, and travel tech has matured to allow instant booking and dynamic pricing. This convergence creates a unique window to capture high-intent customers before competitors expand.
